

4 Courses

Database Design and Basic SQL in PostgreSQL

Intermediate PostgreSQL

JSON and Natural Language Processing in PostgreSQL

Database Architecture and NoSQL at Scale with Deno

Apr 20, 2026

Zakariae El-abbadi

has successfully completed the online Specialization

PostgreSQL for Everybody

In this course series, learners gained skills to use the PostgreSQL database and explored topics ranging from database design to database architecture and deployment. Other focus areas included comparing and contrasting SQL and NoSQL approaches to database design. Projects focused on creating and manipulating tables, designing data models, constructing advanced queries, and techniques for working with text in databases, including regular expressions.

Charles Severance
Clinical Professor,
School of Information
University of Michigan

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
